Germany: Alexander von Humboldt Foundation Georg Forster Research Award, nominations by 15 January 2017

The Georg Forster Research Award is granted in recognition of a researcher's entire achievements to date to academics of all disciplines whose fundamental discoveries, new theories, or insights have had a significant impact on their own discipline and beyond and who are expected to continue developing research-based solutions to the specific challenges facing transition and developing countries. To support the collaboration, the Alexander von Humboldt Foundation may grant additional funding of up to €25,000. An established academic employed by a university or research institution in Germany must take the initiative to nominate a candidate for the Georg Forster Research Award.

COMPETITION OF INTEREST

Art of Neuroscience 2017: Deadline 15 May 2017. This is an international competition open to scientists and artists worldwide. We are looking for striking visualizations related to the field of Neuroscience in its broadest sense. These can be images or videos representing actual neural data or tissue, but also more abstract illustrations that are in some way related to neuroscience.
